BRING A NEW DESIGN ELEMENT TO THE FOLD

This streamlined cove and mitered edge fabrication method saves time & money, and is customizable for a variety of applications.

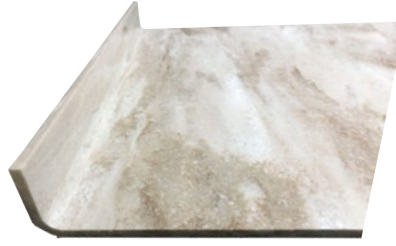

FEATURES

One piece means no grout, seams, mold, or mildew, and a consistent look for colors with movement

Easy-fold cove area

Customizable backsplash height

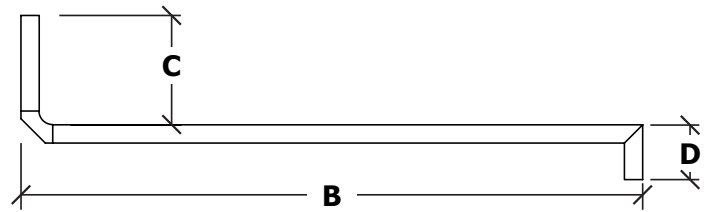

Customizable mitered front edge depth

V-GROOVED OPTIONS

1. **Cove and Edge**
Standard
2. **Low Profile Cove and Edge**
Provides a transition radius cove for the backsplash
3. **Cove Only**
Allows for custom edge build-up or profile
4. **Low Profile Cove Only**
Can be cut to size and used as a base board material
5. **Edge Only**
Depth can be modified to allow for larger edge build-up
